# Module 12

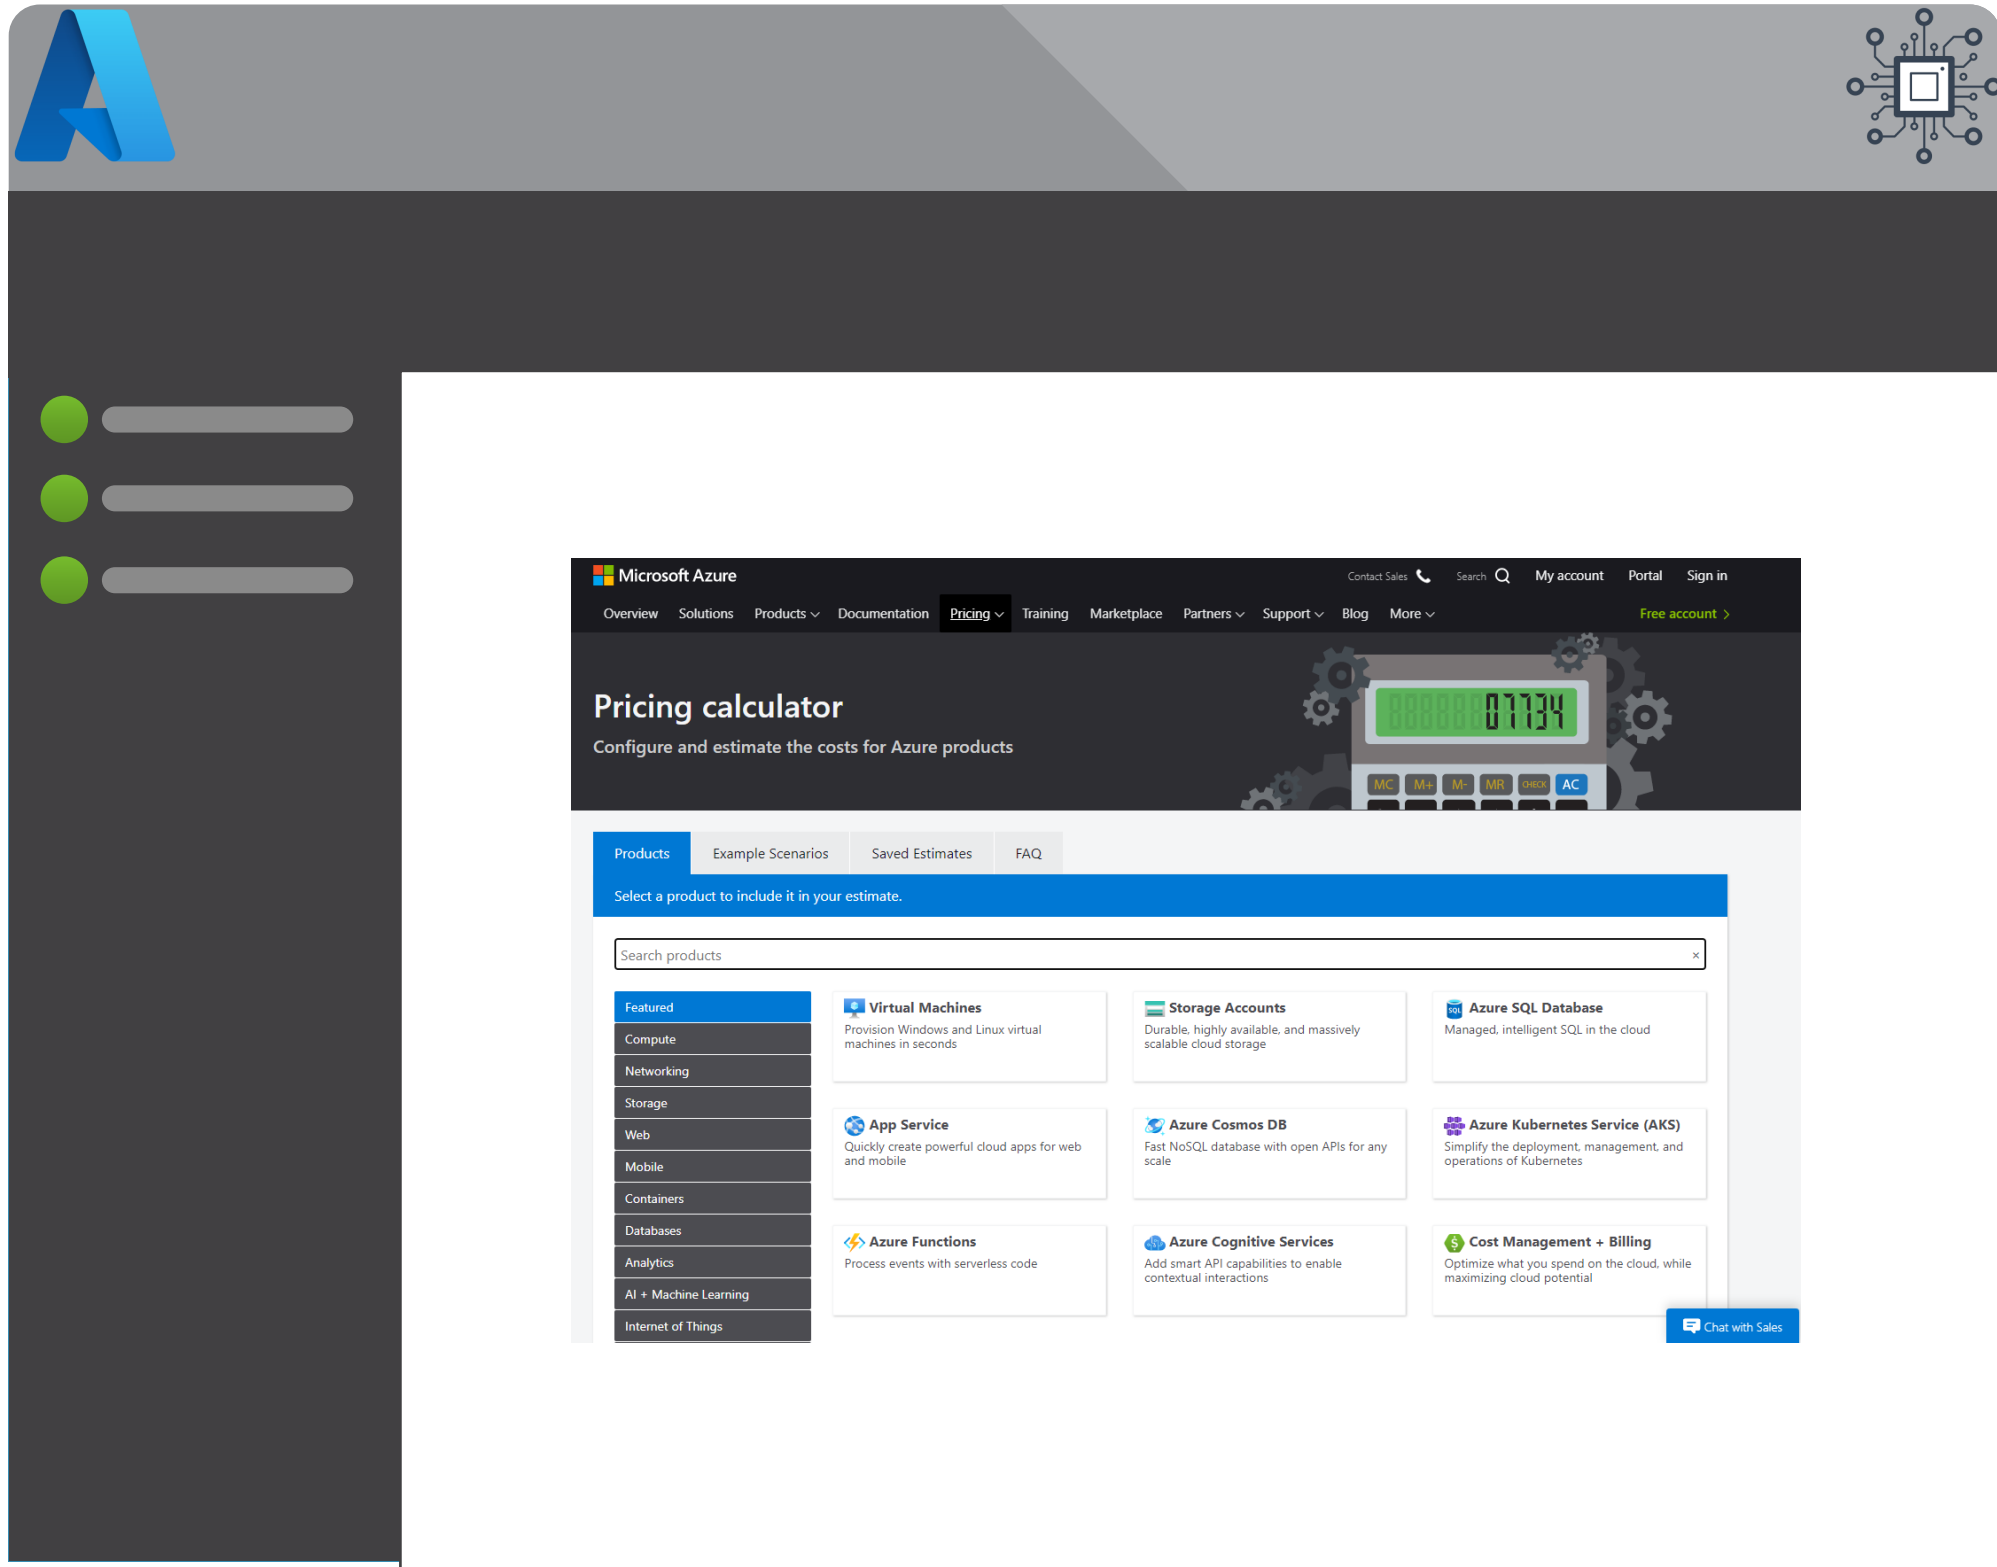

## Final Thoughts

- Running Costs
- Best Practices
- Conclusions

# What is Azure Data Factory (ADF)?

# What are Azure Data Factory Integration Pipelines?

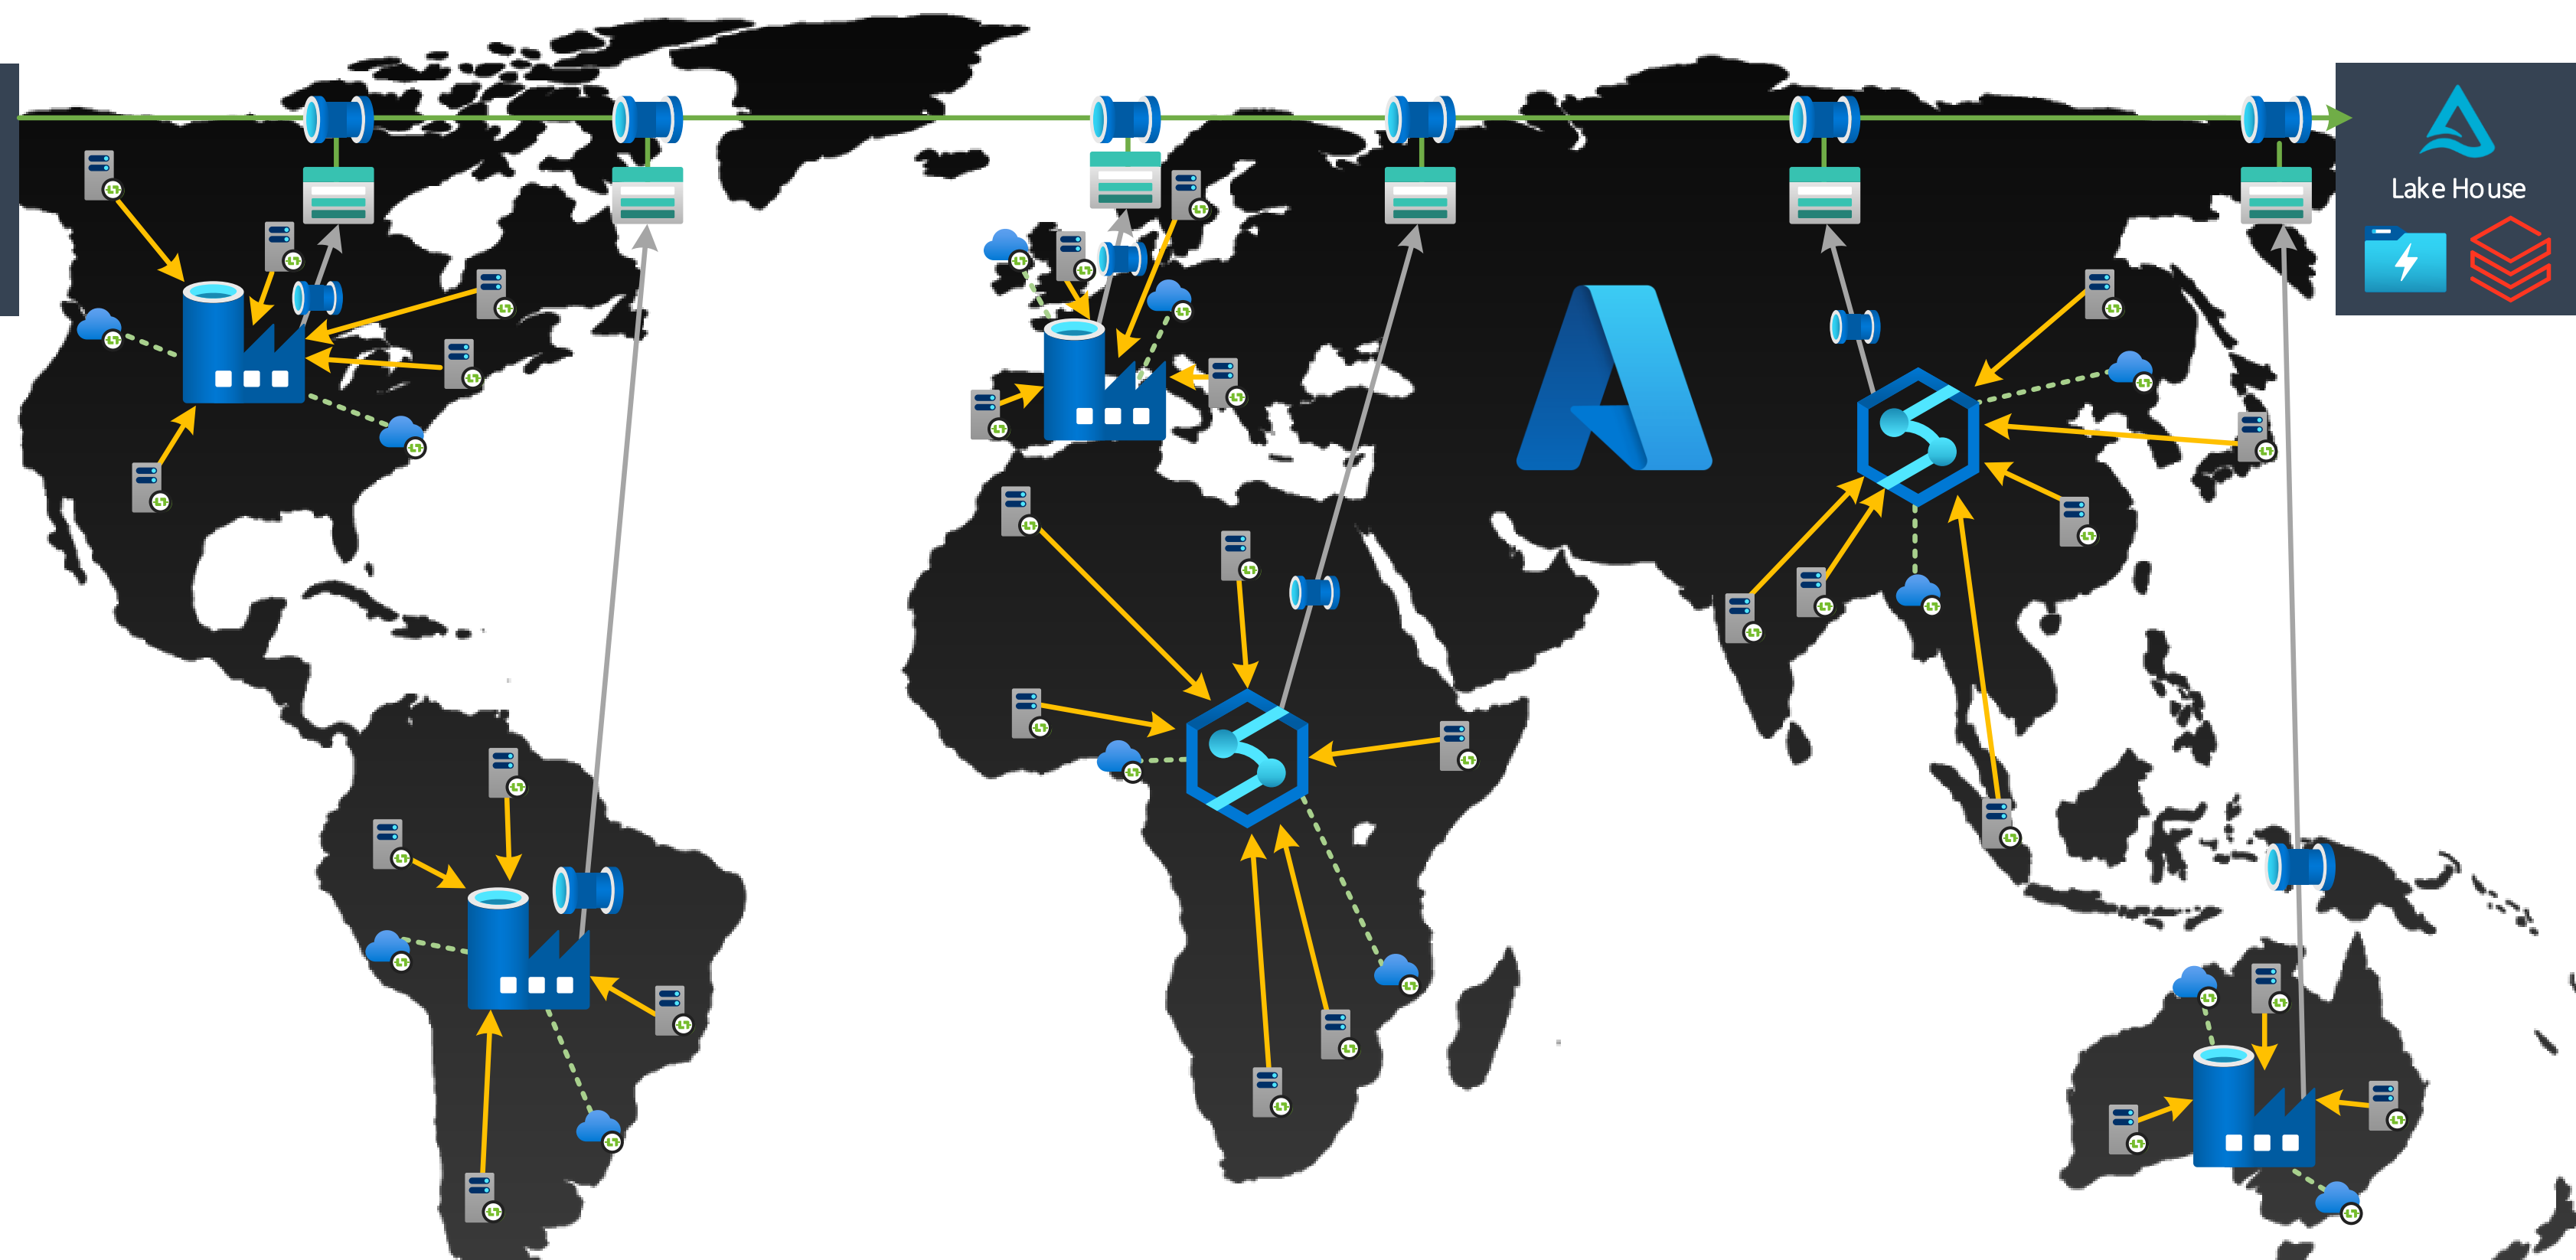

1. A complete Microsoft Azure integration tool.
2. Orchestrator of our Control Flow operations – with scale out Activities.
3. Orchestrator of our Data Flow transformations – using cloud native services.
4. The scheduler of solutions – using a variety of Pipeline Triggers and dynamic frameworks.

# Exploring Data Factory at Enterprise Scale
